

### **Who We Are**

We are a team of dedicated and loving entertainers, care givers and humanitarians operating globally to help people.

### **How We Operate**

We care for each other and partner with those who act for the well being of others.

### **What We Do**

We travel internationally to uplift people of all ages.

Through clowning, we help people remember how to laugh and experience joy, to honor themselves, and to respect others.

We clown to heal and expand the human spirit: people-to-people, country-to-country, and culture-to-culture. We fund projects which improve people's lives.

### **Where We Are Going**

We touch lives and connect people throughout the world.
